## BUSY DAY FOR MAYOR IN COURT.

### SEVERAL PERSONS PAY FINES FOR ORDINANCE VIOLATIONS.

NEW CITY EXECUTIVE SPENDS  
MOST OF THE FORENOON DIS-  
POSING OF CASES BROUGHT IN  
BY MARSHAL.

Mayor Henry T. Titus, new executive of the city of Daytona, is getting a busy start in the handling of city affairs and demonstrating that in a business-like way the city ordinances are to be enforced during his term of office.

Thursday morning the mayor disposed of the assault case of Minnie Gibson and Friday morning handed out fines to seven persons for violating the city ordinances.

K. W. Fillyaw, white, was fined \$5 and costs on a charge of being drunk and disorderly.

E. E. Johnson, white, contributed \$5 and costs to the city for speeding an automobile.

Tessie Anthony, colored, of Waycross, paid \$3 and costs for the privilege of indulging in a fistie encounter with another colored woman in the Daytona colored suburb.

John McDonald, colored, dug up \$5 and costs for imbibing too freely and creating a disturbance.

John Wooten, colored, answered to driving without a light in violation of the city ordinance and paid \$1 and costs.

Mike Douglas, colored, handed over a fine of \$1 and costs to the mayor for riding a bicycle without a light.

The first arrest for an infringement of the city ordinance regulating vehicles on the streets to which the Daily News has so frequently called attention without impression until the new mayor came into office, was in the case of R. J. Triary, who was arrested for leaving his hack standing in the street headed in the wrong direction. This cost the driver \$1 and costs and serves as an illustration that future violations of this ordinance will not be tolerated by the new mayor.

### LITERATURE DEPARTMENT IN CHARGE.

#### THE SPANISH MOTIF DOMINATED ENTERTAINMENT.

THE LITERARY DEPARTMENT  
WAS IN CHARGE OF THE PRO-  
GRAM OF THE PALMETTO CLUB  
MEETING.

Thursday afternoon a very large audience was delightfully entertained at the Palmetto clubhouse. The literature department gave the program for the day. Mrs. Elizabeth Wilder Huston, chairman, presided. The work of the department the past summer, including a study of Spain, ancient and modern, and its people. The "Spanish motif" dominated the entertainment.

The stage was beautifully decorated with the broad striped yellow and white flags of the Spanish merchant marine, and a fine reproduction of an exquisite window in the Alhambra. Many of the department members wore Spanish costumes, and with the gay colored robes and lace mantillas, added just the right note to the background.

Mesdames Rawson, Henry Thompson and E. T. Conrad were the hostesses of the afternoon. Harding Williams, in full uniform, impersonated a famous general.

Mrs. Graham Thompson, in a few words introduced Mrs. Huston, who sketched in outline the works of the department, calling attention to the window of the Alhambra, and laughingly telling the audience that Spanish ladies of high degree were not expected to know very much, announced that the final number of the program would be a piano duet, "A Spanish Smile," by the Messrs. Jolley and Clark.

This met with an enthusiastic encore, as, indeed, did each number of the program. All the ladies wore Spanish titles.

Mrs. Ida Niver then read a paper on "Ancient Romances of Spain." This paper was written by Mrs. Alice C. G. Clark and was an interesting chronicle of the ancient romances and their descendants, as evolved by the poets of the Middle Ages, of the golden age of the troubadours and the romances of the Middle Ages.

Mrs. Mathews greatly added to the pleasures of the afternoon by her exquisite rendition on the harp of "The Tear," responding to an encore with "Murmuring Brook."

Mrs. Bohannon gave a vocal solo, Miss Mathews accompanying her on the harp, "Romany or the Gipsy Girl's Lament," responding to an encore with "A Slumber Song."

The fourth number was a recitation by Mrs. Howard Y. Stillman, "A Spanish Duella." It was given in Mrs. Stillman's usual graceful manner with that ready command of the Spanish tongue that the "Spanish Duella" demands.

The Spanish dance "The Castanets" that followed was danced by the Messrs. Alice Green and Marguerite Edwards, accompanied by Mrs. Howard. The young ladies were appropriately costumed and very graceful in their role.

The delightful program closed with a Spanish folksong "Besame Mucho" given by the Palmetto Club of ladies.

By L. C. DEMAREE.  
One of Daytona's crowning glories is her incomparable beach. No one who has ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanses; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River. Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water. See the beautiful launches, spick and span, with hampers and lockers bulging with refreshments, both solid and liquid, ready for a cruise upon this beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood. Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with "silk" draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has furnished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palm; see the lovely holly with its exquisite berry; see the climbing vines can riot in the trees; see the cryptomeria forms which gain a foothold on the great oaks and statily palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; when they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a

fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have wrought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting, miles upon miles of drive-ways so good as to attract motorists from all over the continent.

And as for the pavements, pavements that look and act like granite—where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruit. Whatever one's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "flowers and squirrels, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and know into the meat, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and bloom- ing the year 'round, you are reminded of Goldsmith's couplet where smiling spring its earliest visit paid and summer's lingering blossoms are delayed.

In one yard roses of variegated hues predominate; another household has a penchant for the poinsettia and the premises are ablaze; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, proficiency and all desirable qualities would truly astonish you.

The Fastest Autos and The Finest Out.

The seventh world wonder, do you ask? Come, whether from Misso- ur or from Maine, from Kalamazoo or Timbuctoo, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the latest, the fastest, and the finest are on duty made and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with a constantly shifting scene.

Everything goes, from a 2-horse power up to a 200-horse power, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

**DELAND**, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.  
At Deland is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational Deland is known as "The Athens of Florida."  
Stetson University has a faculty of 50 professors and instructors. There are over \$400,000 in buildings and equipment; nearly \$300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than \$120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of \$60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.  
The city has a population of about 3,500, with a thickly settled country adjacent. Deland proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.  
The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.  
In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.  
Nine houses of worship testify that Deland is a church-going commu- nity. Baptists, Episcopalians, Meth- odists (Northern and Southern), Pres- byterians, Christians and Catholics, besides colored Baptists and Meth- odists, are represented.  
The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.  
The trip from Daytona to Deland is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute.  
From Deland automobiles go south to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from Deland to Orange City, five miles, and a good road from Deland to Lake Helen, a like distance.

## Seabreeze News

SEABREEZE, Jan. 9.—The reception for Rev. J. E. Ranslow and wife, given at the Seabreeze church last Friday afternoon from 3 to 5 o'clock, passed off delightfully under the management of Mesdames Bianchi, Farrell and Evernden and was well attended, many tourists and residents taking advantage of the occasion to meet the new minister and his wife and form other acquaintances.

The genial presence of Dr. and Mrs. B. F. Marsh in the receiving line added much to the enjoyment of the hour. The orchestra music throughout the afternoon was a much appreciated feature. Delicious refreshments of fruit punch and a variety of cakes were served. The decorations of palms, bamboo and a profusion of roses elicited special admiration.

Mr. and Mrs. John S. Bronson arrived Monday night from St. Louis, Mo., on a visit to Mrs. Bronson's parents, Mr. and Mrs. John Bianchi at their Halifax avenue residence.

The San Souci club held its last week's meeting at the home of Mrs. George Sheets on Valley street. The afternoon was spent in the study of Mexico. Roll call was responded to with current items from Mexico. Mrs. Esch gave an interesting talk on her trip through this country. Mrs. Ronald read a paper on the history of Mexico, and Mrs. Uebelhoer gave an entertaining account of a prairie chicken hunt in South Dakota. The afternoon closed with a social hour, during which refreshments were served.

Mrs. J. Tufts and Mrs. M. Stewart of Vancouver Island, B. C., arrived here Saturday from a trip which included stops in Dakota and Canada, on a visit to their nephew, A. Sinclair and wife on Valley street.

R. H. Fought of Parkersburg, W. Va., leaves this week for Charlotte, N. C., after three or four months' stay in Seabreeze. Mr. Fought has spent the winter with Mrs. Armstrong and friends on Valley street.

H. G. Wilson made a business trip to DeLand Tuesday, accompanying Attorney F. W. Pope in his auto car. On account of the unusually large enrollment in the primary grades of the Seabreeze school it became necessary to employ an additional teacher, and on Monday Miss Bainter of Kingston took charge of the third

and fourth grades.

The school will give a Washington Birthday entertainment on the 22d of this month.

Mr. and Mrs. Bartoli, Michigan people, arrived recently and are located in the Oceola beach cottage.

Professor Harmon, first violinist in the Clarendon orchestra, has secured the Bungalow beach cottage for himself and wife for the remainder of the season, and they are comfortably installed therein.

Mrs. McConnell, trained nurse and dady located Monday afternoon in the Stephens cottage on Halifax avenue, shortly after which Mrs. McConnell received news which required her presence at Wildwood and left on the morning train for that place.

S. E. Ilmore was visiting his family Saturday and Sunday. He left on Monday morning on his return to Glenwood.

Last week T. Simpson of St. Paul, Minn., purchased of the Harrison brothers two lots located on University avenue. Mr. Simpson has not fully decided to build this season, but is having plans drawn with a view to erecting a handsome home on this property. These lot fronts on the river, and the location is choice.

A congenial party of friends including Mr. and Mrs. Geo. Wells, Mr. and Mrs. Walter G. Gamble, Mr. and Mrs. Hatch, Mesdames Putnam and Church and Miss Lula Brooks motored over to DeLand and DeLeon.

Mr. and Mrs. B. D. Woodward are now pleasantly installed in their beautiful bungalow home on the beach. Monday evening they were stormed and gracefully capitulated to a party of friends, the first intimation of whose presence was a deafening blast from numerous tin horns. The party consisted of Mr. and Mrs. W. J. Gamble, Mr. and Mrs. George Wells, Mr. and Mrs. Erreger, Mr. and Mrs. Hatch, Mr. and Mrs. Fogg, Mr. and Mrs. Rogers, Mr. and Mrs. Farrell, Mr. and Mrs. Uebelhoer, Mesdames Church and Putnam. They organized for the onset at the Uebelhoer home.

In the midst of much speechifying, laughter and merriment, some one suggested refreshments, which met with hearty approval, and an appetizing lunch was enjoyed. During the evening Mr. and Mrs. Woodward were the recipients of a number of handsome household gifts.

Mrs. Jones has rented her cottage on Ocean boulevard and left this week for Jacksonville.

Miss Freyburg of Cincinnati, Ohio, has taken rooms in Mrs. Martin's on Ocean boulevard. She has her meals at the Princess Issena.

Bishop O. P. Fitzgerald of Nashville, Tenn., who for five or six sea-

sons past has spent the winters at Mayfield, expected to be here again this winter, but owing to Mrs. Fitzgerald's bad health has decided not to leave home this season. The bishop is widely known and well beloved in church circles, and there have been many inquiries as to when or whether he would be in Seabreeze this year.

D. H. Phillips' new bungalow on Bath street is nearly completed. Mr. and Mrs. Phillips have the Eustis beach cottage rented, and may not occupy their new bungalow if they have an opportunity of leasing it.

This week the deal has been closed between Miss Minnie Kelley and F. E. Nettleton, of DeLand, for an exchange of her six unfinished cottages on Pine and Valley streets for 900 acres of unimproved land near Gainesville, known as the Nettleton tract. Mr. Nettleton has a force at work on the cottages, which will be completed as soon as practicable.

The Southland, C. F. Burgman's new boat, took 40 passengers on the Tomoka river trip Tuesday. The boat had a most successful trial trip Sunday.

R. M. Mallory has taken contract to build a cottage for Lewis Ayres on the lot recently purchased by him on Valley street.

Excellent Hunting and Fishing  
NEW SMYRNA, FLORIDA

**NEW SMYRNA** is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida. With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the state of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the state is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

## TEN YEARS AGO.

FROM THE GAZETTE-NEWS OF FEBRUARY 9, 1901.

Dr. Potter took the county commissioners over the Daytona-DeLand road Tuesday on a tour of inspection.

Messrs. Clark and Rowe have purchased the sawmill at Holly Hill and will conduct the business under the name of the Halifax Lumber company.

J. E. Rush went to Kendrick Monday to witness the marriage of his brother, C. W. Rush, to Miss Lulu Jones.

Miss Gertrude Lee of Chicago has accepted a position as secretary for the Daytona Traction company.

Rev. J. G. A. Martin moved to DeLand Thursday, where he will make his headquarters.

Mrs. E. E. Coleman is opening up a new street on the south side of her lot between Ridgewood avenue and Daytona street.

Major Edward F. Abbott of Covington, Ky., died at his winter home here Friday of heart disease. The major was on the streets during the forenoon and was feeling as well as usual until just a few minutes before death came at 2 o'clock in the afternoon.

### JUST GOSSIP

BY THE GOSSIPER.

A suggestion recently made by Thos. H. White that tourists spending the winter season in Daytona who are owners of automobiles would all be willing to get into the entertainment game to the extent of taking part in a beach parade each day while the tide is low, is a good one. Practically all of the automobile owners among the visitors figure each day to make some kind of a trip and it is believed all will be willing to head their machines toward the beach for a parade of an hour or so every afternoon when the tide is low between the hours of 1 and 5 o'clock, and this would furnish a pleasant diversion for the people who have no automobiles, but plan to go to the beach once each day on an average. The fact that the beach at this time of the year is always in good condition would insure no postponement of such a daily program except in cases of rain. The next time you meet Mr. White tell him what you think of the plan.

### THANKS THE VOTERS FOR LIBERAL SUPPORT.

M. H. Zuber, one of the also runs in the recent city election and runner up for Henry Titus in the race for mayor, is perfectly satisfied with the result and willing to abide by the will of the majority. He is much gratified at the popular vote which he received and feels to thank the electors who gave him their votes in the election. The vote gives Mr. Zuber much encouragement for the future.

**SEABREEZE and DAYTONA BEACH**, two enterprising and progressive towns on the Halifax Peninsula, are geographically one although incorporated as separate municipalities. The towns parallel the peninsula north and south for a distance of from three and one-half to four miles, and extend east and west from the surging seas of the Atlantic Ocean to the Halifax River, the beautiful tide water stream that sets them apart from Daytona with which they have close communion by means of three bridges, as well as a half-hour ferry service.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now receiving splendid patronage from the most discriminating class of tourists.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth, air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straight-away record has been made, and all these records it continues to hold without rival.

The beach has a width of 300 to 500 feet and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobilizing some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors in both towns.

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been truly phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy.

### Louise Colet and the Fever.

Louise Colet, the French poet, novelist and general writer, was born at Aix, in Provence, in 1810. She was better known in life than to posterity not only by her writings, but from various little incidents with which she was connected. One of the most trying was when she intended to winter in the Isle of Ischia, in the gulf of Naples. No sooner was she established in this sea girt "auburn" than an epidemic broke out. The people thought it must be the stranger who had brought the trouble. She was threatened and narrowly escaped death by the devotion of a friend who got her away in a yacht. Strange as it may seem, when the "tenth muse" had left the island the fever disappeared.

### His Text and His Talk.

Bishop X. had officiated in the college chapel, and, though his discourse was most excellent in itself, it had no obvious connection with the text. At dinner Professor Y. was asked his opinion of the bishop's sermon. "Dear old man!" he exclaimed. "It was truly apostolic. He took a text and then went everywhere preaching the gospel."

### Cockney Chivalry.

There was a crush in the pit, and the anaemic looking girl stood with the late comers behind the last bench. The young man in front of her, comfortably seated, was not too absorbed in the musical comedy to note that the girl looked tired as she doggedly stood out the first act. He rose when the curtain fell. "Would you," he asked, pushing past her, "like to mind my seat while I go out for a drink?" The age of chivalry is not past.—London Chronicle.

### Individuality.

To each intellect belongs a special power. We belong to ourselves, and we lose control of our own when we try to be some one else. The original mind is a magnetic center for the attraction of other minds. But the lodestone loses nothing by attraction; it remains the same.—London New Age.

### A Goal He Had Never Reached.

"You are the greatest inventor in the world," exclaimed a newspaper man to Alexander Graham Bell.  
"Oh, no, my friend, I'm not," said Professor Bell. "I've never been a reporter."—Ladies' Home Journal.

### Plain Talk.

"Shave," said the crusty person facetiously.  
"Close?" inquired the barber.  
"No. I'm not close, but I'm not in the habit of giving tips if that's what you're driving at."

He who reigns within himself and rules prejudices, desires and fears is more than a king.—Milton.

Teacher—Now, Tommy, suppose you had two apples and you gave another boy his choice of them. You would tell him to take the bigger one, wouldn't you? Tommy—No, mum. Teacher—Why? Tommy—Cos 't wouldn't be necessary.—Suburban Life.

### Fairly Warned.

He—My dear, I can't afford to buy you that hat. She—Still, you'd save money if you did. He—How so? She—Because I'll just be ill if I don't have it, and you know what doctors' bills are.

### Hit Both Ways.

"It ain't no fun bein' a kid," observed a boy bitterly. "You always hafter go to bed when you ain't sleepy an' git up when you are."—Toledo Blade.

It is worth a thousand pounds a year to have the habit of looking at the bright side of things.—Johnson.

### Fifty Years Ago Today. Feb. 10.

Up to date eighty-two southern officers had resigned from the United States army and navy rather than draw the sword against the south. Among them were two lieutenant colonels, two majors and eight captains of the army and six captains and commanders of the navy. Lincoln passed his last day at his home in Springfield quietly among old friends.

### Not Serious.

"I hear there are grave charges against Senator Jinks."  
"What are they?"  
"The sexton's bills."

### ORMOND-ON-THE-HALIFAX

ORMOND is 5 miles west of Daytona, on the Halifax River. Its location permits of fine scenery and sanitation; its climate is sunny and ideal for winter homes. A wide bridge connects Ormond with Daytona Beach. Many fine homes are maintained on either side of the river, most of them surrounded by shrubbery, besides citrus and other citrus fruit trees.

Ormond has many attractions—excellent automobilizing, good fishing, safe boating, and many pleasant drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, the Triton Inn. The former occupies a position overlooking the Halifax, and the latter has as its outlook the magnificent beach and the broad Atlantic.

Besides the broad, smooth beach there are many drives for carriages and automobiles around Ormond—drives to and through groves of golden oranges; drives through tropical forests to Spanish ruins; drives to the ancient Causeway built by slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of the most interesting of these plantations is at the headwaters of the Halifax and known as Moundgrove. It is one of the finest orange groves on the East Coast of Florida and is amid very pretty surroundings. Moundgrove is on the Daytona-Saint Augustine road.

## A Famous Vine.

In the Cumberland Lodge portion of the royal gardens at Windsor there is a vine, known all over England as the Cumberland Lodge vine, which is a shoot of a still older vine which grows at Hampton Court, but the shoot has far outdistanced its parent in dimensions and productiveness. In England grapes are generally grown under glass, and the Cumberland Lodge vine has a great glass structure, 120 feet long by 20 wide, all to itself. Growing with astonishing luxuriance, the vine spreads itself over a roof area of 2,400 square feet and bears annually a crop of approximately a thousand huge bunches of the finest flavored grapes. These grapes are frequently found on the royal table, and the subject who is presented with a basket of them considers himself highly favored. The shoot from which the great vine has grown was planted in 1775.

## Cliff of Natural Glass.

A cliff of natural glass can be seen in Yellowstone park. It is half a mile long and from 150 to 200 feet high, the material of which it consists being as good glass as that artificially manufactured. The dense glass which forms the base is from seventy-five to a hundred feet thick, while the upper portion, having suffered and survived many ages of wind and rain, has naturally worn much thinner. Of course the color of the cliff is not that of natural glass—transparent and white—but is mostly black and in some places mottled and streaked with brownish red and shades of olive green and brown.

## Exclusive.

At an evangelistic service at Glasgow the preacher at the end of his address cried, "Now, all you good people who mean to go to heaven with me, stand up!" With a surge of enthusiasm the audience sprang to its feet, all but an old Scotchman in the front row, who sat still. The horrified evangelist wrung his hands and, addressing him, said, "My good man, my good man, don't you want to go to heaven?" Clear and deliberate came the answer, "Aye, Aye, my gangin', but no w' a parrsonally conducted pairty!"

## The Rajahs of Bustar.

The rajahs of Bustar are hybrid Rajputs, claiming to be of the family of the moon, and have reigned in Bustar for between five and six hundred years. The family bears the name of Rathputry, and every year the rajah has to sit on the rath at the festival of the Dusseerah wearing the jewels of the goddess Duteshwarre, the tutelary goddess of the state, which are brought from Dautawara temple for the purpose.

"Save for the jewels he is clad only in wreaths of flowers," says a writer in the Wide World, "and when we saw him he looked very solemn—at most ashamed of himself—as he passed us."

"In connection with this ceremony there used to be a brutal custom of dragging the rath, a huge sort of juggernaut car weighing many tons, over the bodies of live buffaloes, often only partly killing them."

"This horrible practice was stopped by British officials."

## Indispensable.

Three camels presented themselves at the dock where the ark was tied up, whereas but two animals of a kind had been called for.

"One of you fellows will have to step aside!" shouted Noah very peremptorily.

But the three ships of the desert smiled knowingly.

"I," said the first of them, "am the camel which shall pass through the eye of a needle sooner than a rich man shall enter the kingdom of heaven."

"I," said the second, "am the camel which so many people swallow while straining at a gnat."

"And I," said the third and last, "am the camel whose back was broken by the last straw."

Whereupon Noah, perceiving that posterity could ill spare any of these and would be lost for illustrations without them, graciously made an exception in their favor.—Puck.

## Its Great Fault.

Wilson Eyre, Jr., the noted Philadelphia architect, can criticize with delicate wit architecture which he disapproves. A brother architect induced Mr. Eyre the other day to go to see one of his latest constructions, a daring edifice not far from the city hall. Mr. Eyre looked over the new building gravely and silently, and at the end of the inspection the host said in rather anxious tones:

"Well, how do you like it? It's pretty good, don't you think?"

"Excellent," said Mr. Eyre. "It has only one fault."

"What's that?" the other asked.

"It's fireproof," was the reply.—Exchange.

## The Mean Thing.

"Phyllis is the meanest kind of a gossip."

"What makes you think so?"

"Because she never tells you anything herself, but gets you to tell her all you know."

## A Poor Plan.

The trouble with some men who reach the top is that they go right on over and down the other side.—Chicago Record-Herald.

## A Parting Shot.

Cabby (badly worsted in the dispute) —Well, I 'opes as the nex' four wheeler ye tikes, mum, will be an 'earse!—Punch.

## HAPPINESS.

Before we bring happiness to others we must be happy ourselves, nor will happiness abide within us unless we confer it on others.—Maeterlinck.

### SMOKING MERRIHUANA.

It Fills Mexican Peons With Something Like Delirium Tremens.

Water bugs and worms are among the tidbits in which the Mexican peon delights. He catches his bugs as they skim along the top of fresh water ponds, drying them and then eating them with as much zest as an American boy eats peanuts. As near as the peon can explain it, their flavor is something on the order of the chestnut, but as no white man has ever tried eating water bugs, or if he has doesn't dare confess it, the exact taste of these Mexican morsels can't be described very accurately.

The peons do, too, on the nice, fat pulque worm. This insect is about two inches long and half an inch thick. They fry the dainty in grease and pack it in brown paper packages of a dozen worms, which fetch 2 cents a paper. An industrious pulque worm collector makes a good living.

The worm inhabits the maguey or pulque plant, from which is distilled the aqua miel, or honey water, of Mexico. After twenty-four hours' fermentation it is very intoxicating. After the Mexican has primed himself with several drinks of aqua miel and has smoked half a dozen cigarettes made of the dried leaf of the merrihuana weed and brown paper he is ready for any crime of violence.

This combination of stimulant and narcotic has the effect of deluding the victim into thinking that his enemy—and every peon has a choice collection of enemies—is a pygmy in stature. At the same time it gives him an idea that he is tremendously strong and wonderfully brave. So he sallies forth to make mincemeat of his enemy or enemies and, as a rule, lands in the local calaboose.

One of the peculiar effects of merrihuana smoking is to distort the size of all animals, making them of enormous size and horrible shape. The smoker is filled with a horrible fear, something like the horrors brought on by delirium tremens. A kitten or a puppy to his distorted vision appears as some terrible creature. A common sight in Mexico is to see a swarthy "greaser" armed to the teeth, flee in terror from a small dog, while he would fearlessly attack any man with his knife or his machete.
